

SkillSwap

PROBLEM

- ❖ The average online course costs **thousands**
- ❖ **80% of learners never finish** online courses
- ❖ Skills exist everywhere — but connections don't

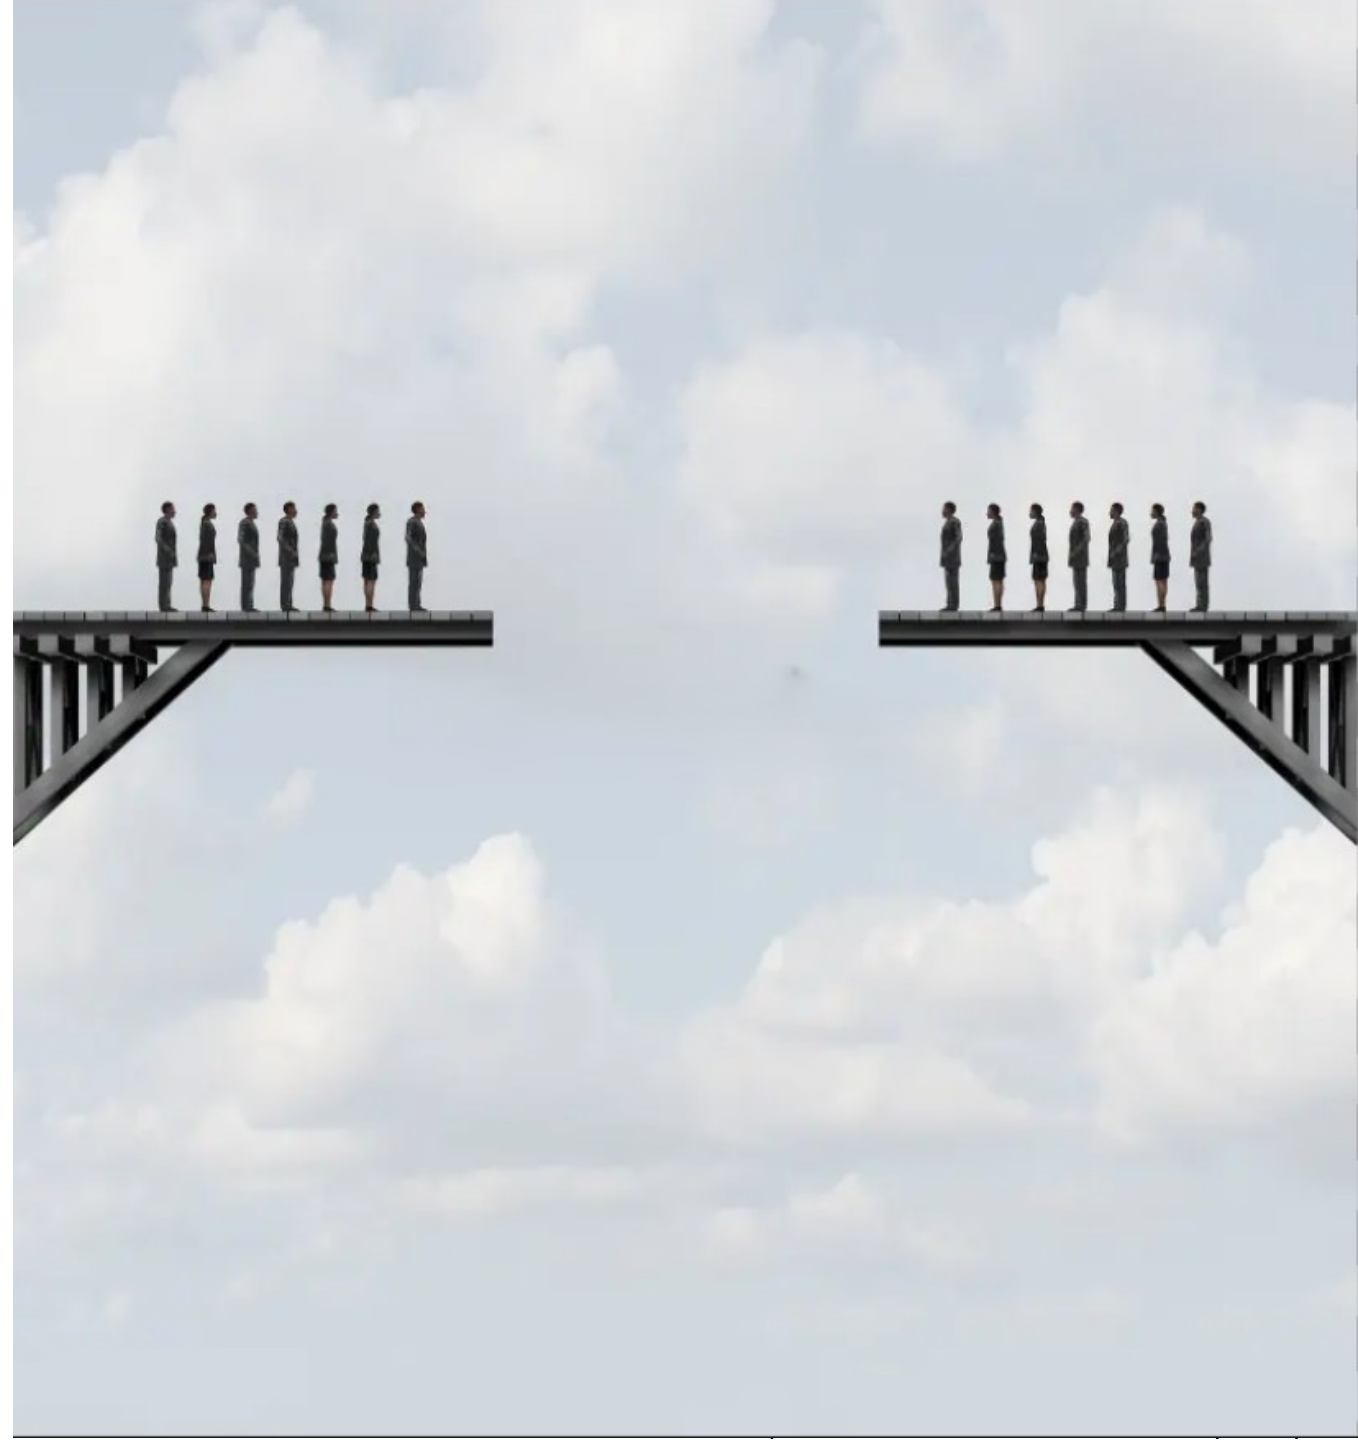

So why is learning still broken?

❖ **One-way platforms dominate.**

- YouTube, Udemy, Coursera deliver content, but interaction is limited.

❖ **Untapped teaching potential.**

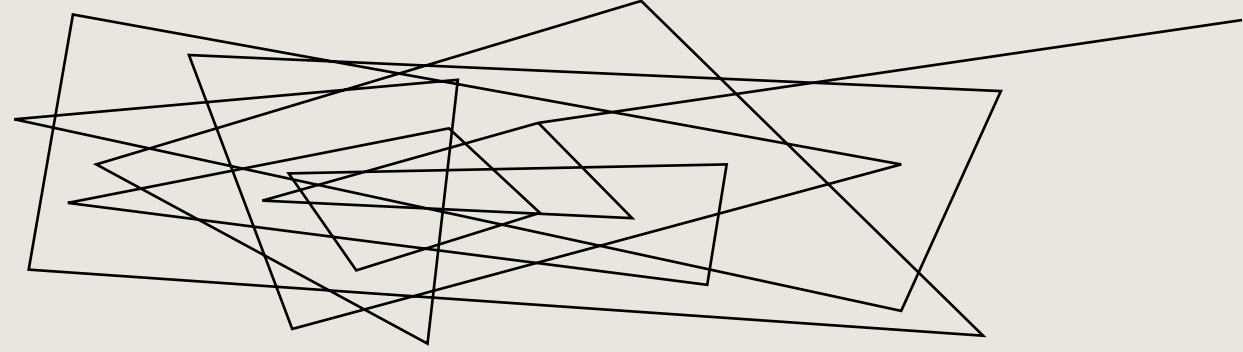

- Everyone has a skill to share, yet no platform allows easy two-way learning.

SOLUTION

- ❖ **Break the cost barrier**
 - **Make learning accessible without expensive subscriptions or tuition.**
- ❖ **Encourage completion**
 - **Keep learners engaged and motivated so fewer drop out.**
- ❖ **Create two-way interaction**
 - **Move beyond passive content—enable learners and teachers to connect directly.**
- ❖ **Unlock hidden teaching potential**
 - **Give everyone a way to share their skills with others.**
